Summary

Hi, I'm a graphic designer and graduate of Arts University Bournemouth. I'm a generalist - I enjoy motion design, branding, web design, and typography. I can turn my hand to a lot of different areas, and I'm always up for trying something new. My design manifesto is simple: Good research, good ideas, good execution, and working in a communicative team will always be more successful than working alone. I am looking for work as an intern or junior designer.
